

Chander K Madan CEO and Founder

Chander is the Chief executive officer of eAge Software Services with over 23 years' in General Management, Finance, Business and Operations, in reputed US and Indian organizations such as HP and NIIT.

In his last assignment at HP, as Vice President and General Manager for Commercial Systems unit, he built, managed and led significant Business Units for the Personal Systems Group in Asia Pacific and Japan. In this role, he was responsible for the overall business performance of the HP Business PC, workstations and remote client solutions product lines. He was instrumental in driving new business models like remote client solutions and thin clients in the Asia Pacific region.

Under his leadership the Business Unit attained record revenue and profit levels for CSU business.

Prior to this, Chander served as VP Finance for Personal Systems group - Asia Pacific and Japan for 5 years. As VP finance, he was instrumental in helping to turn around the PSG business at the time of merger to record profit levels and growth well above market average. He also helped drive the emerging market growth plans of China/India from inception to reality. In the finance function he used the combination of functional knowledge with passion for IT to improve productivity and cost of operation.

Chander holds a Bachelor of Commerce (Hons) from Delhi University and a CFA Charter from the Institute of Chartered Financial Analyst of India.
